

Instruction Sheet for Teachers of Grades 1-2

- Enclosed is a packet of student surveys.
- The survey is anonymous.
- Surveys have been distributed all over the country to schools participating in the KAPOW program. For the sake of consistency, it is important that you carefully follow the directions below:
 - Teachers of 1st and 2nd grade classes will be the only ones who will need to read the survey aloud to their students.
 - Be as accurate to the text as possible.
 - It is OK that students do not know the answers to all the questions! Please let all students fill out their own survey without any help of either you as teacher or fellow students.
 - Distribution of the survey:
 - It is important that the survey has students' undivided attention. Please make sure there are as few distractions as possible (e.g., no talking to each other).
 - We would appreciate if you could monitor your students while they are filling out the questionnaires.

Thank you very much for your cooperation in this research.
